WEB DEVELOPER

Computer Science graduate with hands-on experience in both front-end and back-end development. Completed several projects utilizing HTML, CSS, JavaScript, and ReactJS on the front end, alongside building RESTful APIs and backend systems with Node.js, Express, Next.js, and TypeScript. Known for strong problem-solving skills and a focus on creating seamless, user-friendly experiences, with a keen interest in advancing backend expertise. Passionate about learning new technologies and eager to contribute to dynamic development teams while growing within the tech industry.

STRENGTHS AND EXPERTISE

Node
Mongo
Express
Rest API

PostgreSQL
Next Js
React
Javascript

Typescript
Git
JAVA
C++

PROFESSIONAL EXPERIENCE

Stash Technologies Front End Developer

August 2023 - October 2023

- SikhYatra.com: Developed a comprehensive website, taking charge of the entire design and state management. Utilized technologies such as React, HTML, CSS, Bootstrap, and JavaScript.
- Saudi Ziarat: Contributed to front-end development, leveraging skills in React, HTML, CSS, Bootstrap, and JavaScript to enhance the project.

BX Track Solution Back End Developer

Sep 2024 - Present

- Implemented Auth0 for secure authentication and Intercom for user engagement, enhancing user experience and security across multiple projects. Developed robust APIs using Node.js, Express, and TypeScript to facilitate seamless data interaction, and leveraged Next.js and PostgreSQL to build scalable, responsive applications. Collaborated closely with the team to ensure smooth integration of these technologies, contributing to the overall success of each project.

EDUCATION

Foundation University School of Science and Technology (Bachelors)

2019 - 2023

- Bachelors of Science in Software Engineering
(2.94 CGPA)

Askaria college (Intermediate)

2017 - 2019

- Intermediate(Maths,Physics,Computer)
Grade: 2nd division,754/1100 marks

F.G Sir Syed Public School (Matric)

2015 - 2017

- Matric (Computer)
1st division,805/1100 marks

PROJECTS

- FYP (MA Organizer E-commerce site)
- Developed an e-commerce web application using Firebase and ReactJS. The project allowed users to browse and purchase products, manage their shopping carts, and process payments. Key achievements and responsibilities included:
 - Designed and implemented the front-end user interface using ReactJS, HTML, and CSS.
 - Utilized Firebase for real-time data synchronization, user authentication,
 - Implemented the product catalog, shopping cart, and payment(COD)
 - Conducted thorough testing and debugging to ensure a seamless user experience.

COURSES

- Javascript and react course from udemy
- Complete node.js developer course from udemy
- Javascript and react course from udemy
- HTML AND CSS course from free code camp.
- HTML AND CSS course from udemy
- Bootstrap course from udemy
